Windows Graphics 1300

Self-adhesive, PVC calendered monomeric film with removable adhesive and glossy finish. The film is specially designed for UV and Latex ink-jet printing systems ensuring the best printing results possible on perforated materials.
The media is extraordinary in terms of image quality.

End use:	Window decoration
Furnish:	100% PVC
Finish:	Glossy
Ink compatibility:	Latex, UV, Solvent and Eco-solvent.

Technical Target Values

Property	Units	Values
Substance (liner)	g/m^2	150
Caliper (film)	µm	140
Gloss Hunter	%	50
Perforation rate	%	50
Minimum applying temperature	^{o}C	15

Available Widths: 1370mm, 1520mm
Available cores: 3"
Available lengths of the roll: 50m
