P2V High Performance Inks for the Vutek® Q5™ 2000/3200 series™

100% solids, ultraviolet light resistant pigmented ink that is applied to various media using a Vutek® Q5™ 2000/3200 series printers. INX Digital's seven year investment in research and development on their UV curable line of products has proven that it is convincingly better than other brands previously used in the industry. INX Digital UV line of Triangle inks has not only matched the OEM color density but many times has outdone them. Increased adhesion is another benefit to the Triangle complete line of UV inks. This ink is manufactured under strict quality controls; pigment particle size is sub micron and color is computer controlled for consistent batch-to-batch uniformity.

Ink Train Warranty

INX Digital offers the most comprehensive warranty in the industry. If inks are proven to be the cause of the printer breakdown during the initial OEM warranty period, then INX Digital will provide parts, service or reimbursement costs required to repair damage to the Ink train.*

*See warranty disclosure statement for details.

Outdoor Durability Warranty

INX Digital backs their products with their Worldwide Ink Durability Warranty. INX Digital's TRIANGLE® Inks have been extensively used for many years and exposed to virtually all global and outdoor climates.*

*See specific product durability warranty as some vary.

FLATBED UV CURABLE PROTECTION

Cristal Bond

AVAILABLE IN: Gloss (D007), Crosslinker available (D007B)

TRIANGLE CristalBond is a premier protective clear coat specifically designed for adhering to and protecting UV curable inks. This aqueous-based formulation for use over UV curable inks also provides premium protection on piezo prints utilizing true solvent and Mild Solvent inks. CristalBond virtually eliminates directional banding (lawnmower effect) on UV prints and minimizes the effects of UV light transmission, oxidation, moisture and temperature, and has an increased resistance to abrasion.

6 x 3.25 liter Bottles
Net quantity 19.50 liters

Color Center

INX Digital provides custom profiles to our customers at no charge. Every print shop is unique in their set up just as every printer is slightly different from the other. For this reason we offer to create custom profiles for our customers various needs.
